"Elephant Man"

Visit "[Elephant Man](#)" on MotoLyrics.com

Just like the elephant man
nothin's changed inside
people don't see the same
they smile within their eyes
and all true love
shines to with the brilliance
over million souls
it came with despair
that things you cannot change
see the pain he has
just like the elephant man

Raised from the kingdom
grab him to the king
and it sounds so secret queen
say the truth in the mirror
that feels to strengthen his heart
friend that banned to holding love

it came with despair
that things you cannot change
you see the pain in hand
just like the elephant man
nonthin's changed inside
people don't see the same
they smile within their eyes
Just like the elephant man
nonthin's changed inside
people don't see the same
they smile within their eyes
Just like the elephant man (X4)
