Oh yeah!

Look out!

Oh yeah!

[Verse]

Hey, what's your name?

Yeah, we're both thinking the same thing

Well, now let the games begin

Let me introduce you to pleasure

I will seduce you my treasure

You know you'll ask me for more and more

But honey, don't you know just what you've got in store

[Chorus]

Well, if it's too hot, you're too cold

If it's too loud, you're too old

Baby, let go of what you can't hold

Baby, you're too hot and cold

[Verse]

What color is my heart

Can it be torn apart?

Don't turn your back on me

'Cause baby can't you guess by now

You're gonna be in misery

[Chorus]

Baby, you're cold!

Ow!

Dig this!

[Guitar Solo]

Yeah-yeah!

I've got the power any hour

Baby feel my tower of power!

Well, if it's too hot, you're too cold  
If it's too loud, you're too old  
Baby, let go of what you can't hold  
If it's too hot you're cold  
Too hot (too hot)  
Baby it's uh, too cold (too cold)  
Make up your mind (too hot) yeah!  
Too hot, too cold  
H-hot, look out!  
Too hot (too hot)  
Too hot baby (too cold)  
You're much too cold  
Make up your mind (too hot)  
Too hot, too cold  
H-hot, h-hot, yeah!  
Too hot (too hot)  
Too hot (too cold)  
Make up your mind (too hot)  
Too hot (too hot)  
Too hot (too cold)
