In a world of doubt and danger
(Danger)
You see it everywhere
Ooh, your friends turn into strangers
(Strangers)
Does anybody care?

But when all hope is lost
I'm gonna be there, whatever the cost
When you feel lost
Someone to hold you with all of their might
Through the darkness night, I'll be there

I'll fight hell to hold you
No river too deep or mountain high
I'll fight hell to hold you
By my side
I'm gonna fight hell to hold you
Till time stands still and worlds collide
I'll fight hell to hold you
By my side

Ooh, the jealous and the lonely
(The lonely)
They try to keep us apart
Ooh, but let 'em come between us
(Between us)
That's when the trouble starts

'Cause there's one thing I know
I'll be beside you wherever you go
You can be sure
Someone to carry you into the light
Swear with all my might, I'll be there

I'll fight hell to hold you
No river too deep or mountain high
I'll fight hell to hold you
By my side
I'm gonna fight hell to hold you
Till time stands still and worlds collide
I'll fight hell to hold you

By my side
Ooh, by my side

'Cause there's one thing I know
I'll be beside you wherever you go
You can be sure
Someone to carry you into the light
Swear with all my might, I'll be there

I'll fight hell to hold you
No river too deep or mountain high
I'll fight hell to hold you
By my side
I'm gonna fight hell to hold you
Till time stands still and worlds collide
I'll fight hell to hold you
By my side
