Can you feel your heart pound?
Do you feel it beat?
Can you feel the earth quake?
Underneath your feet

Can you feel it burnin'?
Do you understand?
You can make the whole world
Bow to your command

Here comes the sound of thunder on the way
A million voices shouting, lemme here you say:

I'm Alive
In the street
Made of fire, made of heat
I'm an animal
And I'm free

No rules
No bounds
Nothing's gonna hold me down
I'm an animal
I am free

Are you superstitious?
Live a fantasy
Don't need no ball of crystal
To tell you what you see

Let others take the road that leads to nowhere
Stand up, raise your fist up in the air! (repeat Chorus)
