"Into The Void"

I'm losing power
And I don't know why
Not really sure
If I'll live or die
I wanna leave
But I can't get away

It's a strange sensation
Out of control
Being by myself
I feel this gravitation
Caught like a magnet
And I'm being pulled

Into the void
I wanna get away, get away
Into the void
I'm being pulled, being pulled down
Into the void
This place is spinning, spinning me round
Into the void
Feel like I'm being pulled
Into a black hole

This crazy feelings
Screwing with my head
I'm overloaded
And my gauges are red
State of confusion's
Gotta hold on me

I feel a hesitation
I'm being drawn, falling right off the track

Don't like this situation
Caught like a magnet
And I'm being pulled

Into the void
I wanna get away, get away
Into the void
My head is spinning, spinning me round, round

Into the void
This force is getting, getting me stronger
Into the void
I feel like I'm being pulled
Into a black holeInto the void

Into the void
Don't like this feeling, I'm being pulled down
Into the void
I wanna get away, get away
Into the void
Feel like I'm spinning, spinning around
Into the void
I'm being pulled, being pulled down
Down, down, down
Into the void
Get away, get away
Into the void
Feel like I'm being pulledInto a black hole
Into the void
