oooooh.. Yeah!

Wooh hoo hoo! Yeah!

Spin is rising on a soft cold day  
burn to see for i heard you say my name  
summer's comin' soon i can feel the heat upon my face  
one smile's and you fall down  
thinks the day and were the found  
all the people you'll knew  
well think good of you  
behind when your left on your max

Heaven's gonna if you just can't wait (just can't wait)  
to see you again  
some said it is the time to waste (wooh hoo hoo)  
from the startin' to end

all those followin' on the day's in the shade  
when the whispers have to callin' out my name  
when you say you'll stay can you see the tears on my  
face  
one smile's and you fall down  
thinks the day and were the found  
all the people you'll knew  
well think good of you  
behind when your left on your max

Heaven's gonna if you just can't wait (just can't wait)  
to see you again  
some said it is the time to waste (wooh hoo hoo)  
from the startin' to end

Heaven's gonna if you just can't wait (just can't wait)  
to see you again  
some said it is the time to waste (wooh hoo hoo)  
will meet in the end

in the middle of the cold dark night  
think youll'be and sure you found  
i'm just to hard to be away

after all they wait me through  
and all the crazy thing you'll we will do  
time's hide back and you just can't waste  
keep the lock on your heart till the day

Wooh hoo hoo!  
Yeaaah!

Heaven's gonna if you just can't wait (just can't wait)  
to see you again  
some said it is the time to waste (wooh hoo hoo)  
from the startin' to end

Heaven's gonna if you just can't wait (just can't wait)  
to see you again  
some said it is the time to waste (wooh hoo hoo)  
will meet in the end

I'm just can't wait!  
Just can't wait!  
Ooh baby!!! Oooh just can't wait!
