Do it

She was just 19 but in her eyes
She was old enough to know
We were caught between two city streets
Like a bad dream

We could barely survive in the world outside
Where the writing's on the wall
Still she lets me know, we just can't let go
And she takes my heart away

When she tells me, I want it
I go crazy, I need it
When she touches, I feel it
Right there in her eyes

I'm the King of Hearts
Livin' out a fantasy
The King of Hearts
When she's layin' next to me

Shinin' like a jewel tonight
Love is gonna rule tonight
Yeah, I'm gonna be the only one
The King of Hearts

Like a neon light, the shadows flash
Across my empty room
We could leave tonight
And save ourselves from a bad scene

When we walk on by with our heads up high
All the faces turn our way
Yeah, it's in their eyes, they realize
We can make our getaway

When she tells me, I want it
I go crazy, I need it
When she touches, I feel it
When she looks at me

I'm the King of Hearts
Livin' out a fantasy
I'm the King of Hearts
When she's layin' next to me

Shinin' like a jewel tonight
Love is gonna rule tonight
Yeah, I'm gonna be the only one
The King of Hearts

When she tells me, I want it
I go crazy, I need it
When she touches, I feel it
Right there in her eyes

I'm the King of Hearts

I'm the King of Hearts
When she's layin' next to me
The King of Hearts
Livin' out a fantasy

The King of Hearts
I'm in a fantasy
I'm the King of Hearts
She's lyin' next to me
I'm the King of Hearts
