Ready set go, light the fire below
No time left to rest my head
Time for action, gonna start the show
Catch your breath because I won't slow down
I'm gonna kick it up instead

'Cause I know what I'm doing
And I know what I want

Give me life for the taking
Give me love till I'm shaking
Give me rules just for breaking
Because it's never enough
Never enough
Never enough

People waste time on their hopes and dreams
Fate is always in my hands
Only way I know is the way I'm gonna go
Let others sit and make their plans
I won't stop till I make it to the top
Don't need no one to understand

Cause I know what I'm doing
And I know what I want

(repeat chorus)

You can see what you want to believe
I'm gonna live the life live
Gonna try till the day I die
I'm givin' all I got to give

(repeat chorus)
