"Raise Your Glasses"

Visit "[Raise Your Glasses](#)" on MotoLyrics.com

I took a ride with a one way ticket
I aimed my arrow at the mark and hit it
We all need to be somebody
Been broken down, but not defeated
I kept on punching back till I succeeded
We all need to be somebody, now

We stop at nothing, even climb barbed wire
We struck a match and set the world on fire
And if we tried, we couldn't get much higher, now

(Aaa)
Everyone around the nation
Raise your glasses, raise your glasses
Standin' proud 'cause we're the champions
Raise your glasses, raise your glasses

We pushed it all, beyond the limit
We took our chances and we jumped right in it
We all need to be somebody
Now I believe, in strength, in numbers
Went into battle with a force of thunder
We all need to be somebody

I wanna shout it out with all my power
I wanna scream it from the highest tower
I want to celebrate our finest hour, now

(Aaa)
Everyone around the nation
Raise your glasses, raise your glasses
Standin' proud 'cause we're the champions
Raise your glasses, raise your glasses

Oh, you gotta give it your all
You gotta know what you're after
And go, we'll make it over the wall together

I took a ride with a one way ticket
I shot my arrow at the mark and hit it
When all the others only talked, I did it
(Everyone around the nation)

Kept pushing everything beyond the limit
(Raise your glasses, raise your glasses)
You play the game, you gotta play to win it so
(Get your voices, generation)
So raise your glasses, raise your glasses

Everyone around the nation
Raise your glasses, raise your glasses
Standin' proud 'cause we're the champions
Raise your glasses, raise your glasses

(C'mon)
Everyone around the nation
Raise your glasses, raise your glasses
(It's gettin' on your'e gonna stain your initial score)
Get your voices, generation
Raise your glasses, raise your glasses
(Your score)

(C'mon)
Everyone around the nation
(I need you people, c'mon, wake up)
Raise your glasses, raise your glasses
Standin' proud 'cause we're the champions
Raise your glasses, raise your glasses
