We Are One Lyrics: You are not alone and how long can  
you run  
It's much to late if you don't know what you've got 'til  
it's gone  
Once upon a time you were a child but that was  
yesterday  
Believed that magic in your heart would never fade  
away

But hold your head up high and let your spirits fly  
Keep hope alive yes deep inside and your dreams will  
never die

We are one  
Everywhere I go, everyone I see  
And I see my face looking back at me  
We are one  
Everything I know, what I know is true  
Everyone of us is inside of you  
We are one  
We are one

Oooh take a breath, close your eyes you're on the road  
again  
And then you realize they've brought you back to life  
again  
Something's never change but if you fantasize  
You'll feel it deep inside yourself and then you'll realize

When you feel it coming  
When you hear the sound  
You'll always laugh when you wanna cry  
And then you'll know it deep inside

We are one  
Everywhere I go, everyone I see  
And I see my face looking back at me  
We are one  
Everything I know, what I know is true  
Everyone of us is inside of you  
We are one

We are one

You are me, I am you  
What you see, is all true  
(it's all true)  
You are me, I am you  
What you see, is all true  
(it's all true)

You are me, I am you  
(we are one)  
What you see, is all true  
(I am you) (we are one) (it's all true)  
You are me, I am you  
(we are one)  
What you see, is all true  
(we are one)

We are one  
Everywhere I go, everyone I see  
And I see my face looking back at me  
We are one  
Everything I know, what I know is true  
Everyone of us is inside of you  
We are one  
We are one

{repeat above}
