Alright

It's my move, the ground's shakin'
This time I'm gonna knock you down
I'm comin' through, no more waitin'
I'm on the move at the speed of sound

I'm alive like a hurricane flies
I don't run, I don't walk the line
When the sky and the worlds collide
It's my time, I'm gonna take what's mine

Live wire and loaded gun
Get ready, 'cause I'm the one

When lightning strikes
I howl in the rain and thunder
The fire ignites
A flash of light electrifies my heart and my soul
And lightning's gonna strike tonight

Hold on if you're comin'
Let go if you're stayin' behind
I feel the need, the sky's hummin'
I'll take the lead and it's my time to shine

I'm alive, got the power inside
Wrong or right, they call me dynamite
High voltage, running free
Unleash the storm that's inside of me

Black cloud and the rebel sun
Get ready, 'cause I'm the one

When lightning strikes
I howl in the rain and thunder
The fire ignites
A flash of light

When lightning strikes
I howl in the rain and thunder

The fire ignites
When lighting strikes

When lighting strikes (when lightning strikes)
When lighting strikes (when lightning strikes)
The fire ignites
When lighting strikes
Electrifies my heart and my soul
