Alphamale has set his sights  
He's looking to get a bite  
Doesn't have the time to think  
Maybe he's the missing link

One too many, oh you wanna get me  
If you want it won't you get up  
You're a killer shaved gorilla  
If you want me won't you get up

Look out ladies here he comes  
He's the fucking number one  
He's looking to spread his seed  
Won't you let him get a piece

One too many, oh you wanna get me  
If you want it won't you get up  
You're a killer shaved gorilla  
If you want me won't you get up

One too many, oh you wanna get me  
If you want it won't you get up  
You're a killer shaved gorilla  
If you want me won't you get up
