This is a toast to all the people listening  
I hope it gets stuck in your head  
So tap your feet and click, click, click your fingers  
Let's make the rest of the world care

I want a song that gets attention  
This is the way it goes  
So hope you'll play it on your station  
Dodo's and WoahOh's, WoahOh's

So hit the lights and turn the record up now  
I hope you hear this in your sleep  
Spin off the typical I miss you baby  
Who would've thought we were so deep

I want a song that gets attention  
This is the way it goes  
So hip you'll play it on your station (Dodo's and  
WoahOh's),  
We'll grab a drink and kill our brain cells  
Sing all the words we know  
We're bringing back the lovers music (Dodo's and  
WoahOh's)

WoahOh, WoahOh, woahOhâ€¦!

I want a song that gets attention  
This is the way it goes  
So hip you'll play it on your station (Dodo's and  
WoahOh's),  
We'll grab a drink and kill our brain cells  
Sing all the words we know  
We're bringing back the lovers music (Dodo's and  
WoahOh's)

WoahOh, WoahOh, woahOhâ€¦!
