The barrel shot lead into me
Now all can taste is the bullet
A shot hole in my vanity
And I can't find a place to put it

Well, you look like my type so get in line
Take a number and I'll give you a time

Say you want me, say you'd kill to have me there
'Cos since you shot me I've been dying in this bed
Say you want me, say you'd kill to have me there
'Cos since you shot me I've been dying in this bed
Say you want me

I wish, I could take your face
And stitch it onto all their faces
Relationships that take your place
End up being all I hated

Well, you look like my type so get in line
Take a number and I'll give you a time

Say you want me, say you'd kill to have me there
'Cos since you shot me I've been dying in this bed
Say you want me, say you'd kill to have me there
'Cos since you shot me I've been dying in this bed
Say you want me, this bed

Say you want me
(I'm what you want)
Say you want me

The barrel shot lead into me
Now all can taste is the bullet

Say you want me, say you'd kill to have me there
'Cos since you shot me I've been dying in this bed
Say you want me, say you'd kill to have me there
'Cos since you shot me I've been dying in this bed
Say you want me
