shut the fuck up she said
your simply going to drive me INSANE, (insane)
Your blasting all your amps,
At the same time, frying membranes (membranes)

But through all her constant, nagging each day
I have the peace of mind inside, for the soothingness i
say

I will pull out my 8 mm
And all the shit she squeals, she can bitch into the
shaft

Let the lead infuse in her throat
and I can sing along to all the songs she wrote

take me, if you can grasp me
if you think you can make this last you know i may
may slip away

rip me, yr already tearing me inside
this was my first time
i cannot hide
