I'm Alice!
This is your Wonderland!

Come on everybody
My rollercoaster is almost leavin'

Ooh whoohoo

Now we can take a ride
Through the nights of my magic kingdom

Ooh whoohoo

Your own castle in the sky
Where it feels like you just died
And went to heaven

Ooh whoohoo

And there's a million reasons why
You could choose to stay behind
But just forget 'em

Ooh whoohoo

Follow the leader!
Into the rabbit hole
I'm bout to lead ya
Into another world
Where the lights don't matter
Stars all gather

I'm Alice!
This is your Wonderland

Follow the leader!
Into the rabbit hole
I'm bout to lead ya
Into another world
Where the lights don't matter
Stars all gather

I'm Alice!
This is your Wonderland

You can see the sun
To the left outside your window

Ooh whoohoo

Final destination for this evening
Is wherever your mind goes

Ooh whoohoo

Great adventures to be had
Cuz the meter on the cab is broken

Ooh whoohoo

Where the candy house is real
You can taste it if your mouth is open

Ooh whoohoo

Follow the leader!
Into the rabbit hole
I'm bout to lead ya
Into another world
Where the lights don't matter
Stars all gather

I'm Alice!
This is your Wonderland

Follow the leader!
Into the rabbit hole
I'm bout to lead ya
Into another world
Where the lights don't matter
Stars all gather

I'm Alice!
This is your Wonderland

Fame into the rabbit hole

Where feathers on the creatures glow

Stop by for a spot of tea

The table's set for you and me

Down here with the wild things
And who knows what the wild brings

Purple fat kitty kat

Nevermind where your at

OH

Ooh ooh ooh ooh OOOHH

Follow the leader!
Into the rabbit hole
I'm bout to lead ya
Into another world
Where the lights don't matter
Stars all gather

I'm Alice!
This is your Wonderland

Follow the leader!
Into the rabbit hole
I'm bout to lead ya
Into another world
Where the lights don't matter
Stars all gather

I'm Alice!
This is your Wonderland
