Tell me can you see
See the walls through me?
Because how could a love so crazy be so easy to ignore

Hollow heavy eyes
Follow in your light
I'm a ghost tonight

The starry night is clear
Can you feel me near?
Under the bed I disappear
Like a secret that you know
Some wounds never mend
Lilies bloom and bend
White as teeth I swim beneath the footsteps in the wall

Hollow heavy eyes
Follow in your light
I'm a ghost tonight

Because my heart is a stone until you make it right
I could live forever
Forever forever forever

So tell me can you see
See the walls through me?

Hollow heavy eyes
Follow in your light
I'm a ghost tonight

Because my heart is a stone
Until you make it right
I could live forever
Forever forever forever

So tell me can you see
See the walls through me?
Because how could a love so crazy
Be so easy to ignore
