"Kids"

Visit "[Kids](#)" on MotoLyrics.com

I don't know who you are anymore
You're a mystery now and I'm familiar first
You gave up on us all
You lost hope you're just taking us space
You and your friends have turned to leaches
Begging for money and give insides bitches
You used to be my hero

Chorus:

When we were just kids, you used to go
To throw up and be, to be somebody
If any got lost you're innocent
And you don't remember wearing where
When we were just kids
You loved yourself
You loved yourself
When we were just kids you loved yourself

We all gotta hurt we all pride
You are not alone, we are head to survive
I learned to forgive that go other pain
But you're holding on, holding on to the past
You give gil trips like no other
Left your kids without your mother
You know you used to be my hero

Chorus:

When we were just kids, you used to go
To throw up and be, to be somebody
If any got lost you're innocent
And you don't remember wearing where
When we were just kids
You loved yourself
You loved yourself
When we were just kids you loved yourself
