I am not a dawns  
Inside of change  
And I don't wanna wake up  
I am out of mind  
I see the sun  
And I don't wanna wake up  
Because I got you  
And I know that  
Nothing can bring apart  
And I got the Moon in the moonlight  
And walk on the sun in the light  
And she is at Nighttime in the morning morning  
And I don't wanna see the sun down down  
And she is at Nighttime in the morning morning  
Detail are just as regular how how how  
Around  
Around  
I can surround  
Cause my time has been faster  
I looked around  
We've got what we that after  
You wait to see and love the choice you love  
But soon you and me to wait the sun comes out  
And she is at Nighttime in the morning morning  
And I don't wanna see the sun down down down  
And she is at Nighttime in the morning morning  
Detail are just been recorded round round round  
Around  
Around  
All the bread we going for with a ride  
We were start we could live  
And music deserved  
And setting a mood you and I are in patient on a body  
coming through  
Yeah Ah.ah  
And it's coming through  
Ah Yeah... na...  
And she is at Nighttime in the morning morning
