"Angel Queen"

Visit "[Angel Queen](#)" on MotoLyrics.com

Floating down from the sky, lovely angel queen, it's
you
Shakin from her long sleep, lovely angel queen, it's you
Touching others like a child, loving others for awhile
Come and take my hand, my heart
In time we will be together

When we will say goodbye, they'll be no tears from me
Time passes by so fast
I love you, I remember you, forever.

1, 000 years she rules the earth, lovely angel queen,
it's
You.
Riding flashes cold as ice, changing everything she
sees.
Touching others like a child, loving others for awhile

Come and take my hand, my heart
In time we will be together

When we will say goodbye, they'll be no tears from me
Time passes by so fast
I love you, I remember you, forever.

We we will say goodbye, they'll be no tears from me
Time passes by so fast
I love you, I remember you, forever.

I can't find you anywhere
Where do you come from, where are you going?
I can't find you anywhere
Where do you come from, where are you going?
