Skin of gray, eyes of darkness
In the shadows, bloody victims die
Satan Nocturnal Blasphemous Nosferatu
Demon spawn so intriguing
In the dead night you won't see it
Try to find the demon's red eyes
He is from the 7th gate of
Hell Hell Hell Hell
With the fight in the night, twisted pain
Cover eyes cause you think you're still alive
Run Run Run Run
Blood Blood
Comes out at night, avoiding the light
To hunt and feed on victims
Lusting for blood, craving the flesh
And internal organs
Blood
With the fight in the night, twisted pain
Cover eyes cause you think you're still alive
El Chupacabra
