Look at you look at me and realize that you've changed
some way in this lonely life with the times that you tried
to hide with the times that you've tried to die you you
are so pathetic you look at you look at me and realize
that you've changed some way in this lonely life when
will you dry your crying eyes when will you try to die
you you are so pathetic you change me change
yourself you you are so pathetic you hate me and my
mind I try and I'm sick and tired I bleed from my eyes
you try to die you want to be all right
