I sing of little dreams
of lovers, islands, secrets and poetry
Strumming tales from the heart
know they resonate in you and me

Chorus
Now i'll take the stage
but i'll always be
among you where i belong
to rock your hearts out

I'm supernaturally hypnotized
I'm singing our song like i've never been so high
paparapapa love ko to (2x)

I hear the beat from above
it guides my heart and fills the groove of my soul
No matter where it takes me
on the same ground is where we will always be

Bridge
As i take you to my dreams
soaring high above among the stars
will it keep my feet safe and warm on the ground?
(repeat)

Chorus
Now i'll take the stage
but i'll always be
among you where i belong
to rock your hearts out

I'm supernaturally hypnotized
i'm singing our song like i've never been so high
paparapapa love ko to (2x)
