Blood spilled heart-felt head filled
Play dead
Consider yourself now,
My friend enemy number one
You are bound and gagged,
Sacred circle broken trust
(Blood spilled heart-felt head filled play dead)
Now the plague has been cast in your town
Acid tongue, vemon word, why bother to lie?
Leave the lamb behind your mouth full of
your mouth full of lead and lies
behind your mouth full of
behind your mouth full of lead and lies
Don't walk in the fire,
You might find that you'll get burned
What a fine dirty face
Guilt at last, is this a lesson that's learned?
Can you hear your own blood in you veins, calling out
your demise?
(Blood spilled heart-felt head filled play dead)
Silence a word to the wise
your mouth full of
your mouth full of lead and lies
behind your mouth full of
behind your mouth full of lead and lies
I can't hear you scream
I can't hear you scream
drowning so it seems your mouth is full of poison.
