Watching me fall  
Into the flames  
Of a broken soul tonight  
No stone overturned  
This graveyard of mine  
Allows me no peace

[CHORUS]

Sleep as day dies  
Sleepwalk with the dead  
Wander aimlessly through the night

Love and regret  
Course through my veins  
As I slowly fade away  
Please let me sleep  
Just one last night  
Before I must wake

And I walk with these ghosts

[CHORUS]

And I walk with these ghosts  
And I walk with these ghosts  
And I walk with these ghosts...

[CHORUS]

Sleep as night falls  
Sleepwalk with the dead  
Hope keeps me alive  
Through this life
