Hopelessly in love with death!
The beast, she breathes her lonely breath!
To cast away the last of love!
Until there's only heartache!
From love to lust! From death to dust!
The things we feel we cannot trust!
The emptiness consumes my blood!
Until this love's a burden!

[Chorus]

I know, I know
The truth that hides inside
I know, I know
The truth becomes the lie
I know! I know!
What it's like to burn alive!
Full is never burdened as empty as!
Rotting conscience left behind!
And they will bow! Down before me!
Pledge allegiance on one knee!
That there is nothing found, only hatred!
Fuck the world, it's just you and me!

[Chorus]

Is it the truth!?
Or is it a fucking lie!?
Fucking lie!
