All day a gwan and
I run round the world
Like I can't get my girl
24-7 48-4 Pliers and
Chaka Demus back
Watcha yo now
Star step across

She don't let nobody
She don't let nobody, no no
She don't let nobody
She don't let nobody
She don't let nobody
She don't let nobody
Nobody but me
Nobody but me

Other guys try
To hold her hand
Other guys want
A one night stand
They all stay
When she's around
I'm so proud how
She puts them down
She don't let nobody, no no
She don't let nobody
Nobody but me
Nobody but me ya
I don't worry 'cause
We're so tight
See each other most every night
She let me have the master key
That's why I kissed her explicitly
She don't let nobody
She don't let nobody
Nobody but me
Nobody but me

All right my turn
Only me alone

Deh pon me girl mind
Only me alone
Make her love light shine
Only me alone
Deh pon me girl mind
Only me alone
Make her love light shine
Me say no pon a rush
But dem get it bus
A only me alone get me
Love up love up
Nuff guy out a road
Dem a rush and a lust
But my little girl
She no love the mix up

She don't let nobody
She don't let nobody, no no
She don't let nobody
She don't let nobody
She don't let nobody, no no
She don't let nobody
Nobody but me
Nobody but me ya

Other guys try
To hold her hand
Other guys want
A one night stand
They all stay
When she's around
I'm so proud
How she puts them down
She don't let nobody, no no
She don't let nobody
Nobody but me
Nobody but me ya

I don't worry 'cause
We're so tight
See each other
Most every night
She let me have
The master key
That's why I kissed her explicitly
She don't let nobody
She don't let nobody
Nobody but me
Nobody but me

Watch the ride

No guy out a road can beat
A one night stand
Because me an me woman
We done made a run
Come all day rush all dem a lust
Me a me girl man and
I like me come first the girl sweet
Me tell ya say she fine
A only me alone can
Make her love light shine
The girl me a tell ya
Say she fine
And only me alone can
Make her love light shine
Only me alone
Deh pon me girl mind
Only me alone
Make her love light shine
Only me alone
Deh pon me girl mind
Only me alone
Make her love light shine

She don't let nobody
She don't let nobody
Nobody but me
Nobody but me ya
