According to my heart  
You're the one for me  
The one love of my life  
Is here when you're with me

If someone stole your love  
My heart would beat no more  
For you're the only one  
My heart is longing for

Though I don't know the reason  
Why my dreams don't turn out right  
Still I'll keep listening to my heart  
Who knows someday they might

For according to my heart  
The future will be bright  
And every day I pray  
That my heart knows what's right

Though I don't know the reason  
Why my dreams don't turn out right  
Still I'll keep listening to my heart  
Who knows someday they might

And every day I pray  
That my heart knows what's right
