What I believe, dear
Is all up to you
Those things they are saying
Don't have to be true.

I'll tell my heart they lied
All gossip can't be true
For what I believe, dear
Is all up to you.

I'll put my faith in you
As long as I live
To prove that my love is true
What more can I give.

Let the rumors fly, who cares
As long as you're true
For what I believe, dear
Is all up to you.

What I believe, dear
Is all up to you
Those things they are saying
Don't have to be true...
