Coming on strong, coming on strong  
I can feel the heartaches coming on strong  
I can feel the teardrops, the pain and sorrow  
Ever since you've been gone they've been coming on strong.

Pain come on in hello sorrow, I see you're back again  
Teardrops glad you dropped by 'cause you can help  
drown my pride  
And since you're here the time seems just fine  
To let you know you're gonna be with me till I lose my  
mind.

You've been gone much too long  
And I can feel a heartache coming on strong  
Only thing you left me was misery for company  
And mem'ries of a love gone wrong keep coming on  
strong.

And mem'ries of a love gone wrong keep coming on  
strong...
