All the words that I'll ever know still could not say  
How much I need you so in every way  
I go wrong and you'll guide me as only you can do  
Hold my hands, stand beside me, I'm counting on you.

I'm counting on you dear from the dawn of each day  
To always come through dear in your kind lovin' way  
If you knew just how deeply I feel the things you do  
Then you know how completely I'm counting on you.

--- Instrumental ---

I'm counting on you dear from the dawn of each day  
To always come through dear in your kind lovin' way  
If you knew just how deeply I feel the things you do  
Then you know how completely I'm counting on you...
