Tonight I'll go and find him one more time  
And I'll try my best to change his mind  
I'll tell him that I love him like I've done so much before  
And he'd better listen well, 'cause I won't say it  
anymore.

'Cause I'm down to my last I love you  
He'll have one more chance to make me blue  
I'd give the world to keep him, I've done all a girl can  
do  
But I'm down to my last I love you.

Tonight I know I'll find him way downtown  
With those same old party friends around  
One last time I'll tell him he means the world to me  
He'll have one last chance to hurt me and then I'll set  
him free.

'Cause I'm down to my last I love you  
He'll have one more chance to make me blue  
I'd give the world to keep him, I've done all a girl can  
do  
But I'm down to my last I love you.

Yes, I'm down to my last I love you...
