All my life I've had nothing but trouble
I can't find no way to ease my aching heart
And I feel as though that I'm forgotten
I'm so lonesome since we've been apart.

I'm too lonely to smile dear
Without you my life is o'er
I can't keep the tears from falling
I'm too lonely to smile anymore.

--- Instrumental ---

You are gone but I'll never forget you
You're the only one that ever made me care
When I live this hurt I pray I'll meet you
For I can't live this life without you here.

I'm too lonely to smile dear
Without you my life is o'er
I can't keep the tears from falling
I'm too lonely to smile anymore...
