It's written all over your face.

If you weren't to chose between the two of us
I wouldn't even be in the race
You don't have to tell me what she means to you
It's written all over your face.

I'd rather not have you than have you like this
With you wanting her in my place
So leave me I know that's what you want to do
It's written all over your face.

I've tried but I can't even talk to you
You just sit and stare into space
A thousand thoughts of her are running through your
mind
It's written all over your face.

I'd rather not have you than have you like this
With you wanting her in my place
So leave me I know that's what you want to do
It's written all over your face...
