Down the road of love I see sign after sign
That tells me you're no longer mine
But a heart full of love is a heart that is blind
I love you so and it hurts me to know
That I've kissed you my last time.

--- Instrumental ---

Every sign that I see tells me you're not for me
But I cherrish thoughts of days gone by
I'll be your slave till I'm in my grave
I love you so and it hurts me to know
That I've kissed you my last time.

--- Instrumental ---

I have searched everywhere but there's none can
compare
With the thrill of your kiss that once was mine
But now you kiss so cold don't know what the future
holds
I love you so and it hurts me to know
That I've kissed you my last time...
