[Bill Phillips]

My heart is pounding it's beating faster because my
heart just heard

That you've been cheating on me baby it's lies it's lies
that I heard

I can never believe the stories because I love you so
And you promised you'd be faithful the lies just can't
be true

They're not true they're not true let me hear the truth
from you

Say you're mine all the time I won't let lies turn me from
you

I am shaking my heart is aching just to be with you

Tell me you'll be mine forever the lies just can't be true

[steel]

They're not true...

No the lies just can't be true
