Love, love, love is the answer
Love can bring our people back together
Love, love, love is the answer
Answer everybody's looking for.

Everybody's talking 'bout the troubles of the world
But no one can tell us what to do
I know a way to put a stop to all this bitterness
Here's the secret that I'll share with you.

Love, love, love is the answer
Love can bring our people back together
Love, love, love is the answer
Answer everybody's looking for.

If you think you're ---
If that's the way you feel that's what you'll be
Just open up your heart and show the world the inner
man
That your love shine out for all to see.

Love, love, love is the answer
Love can bring our people back together
Love, love, love is the answer
Answer everybody's looking for.

Come to get the wisdom of the man from Galilee
He tries to show us all the better way
You can do your part by holding to the Golden Rule
Try a little kindness every day.

Love, love, love is the answer
Love can bring our people back together
Love, love, love is the answer
Answer everybody's looking for...
