

## Kitty Wells "Make Believe"

Visit "[Make Believe](#)" on MotoLyrics.com

Make believe that we're happy make believe that we're  
happy

Just pretend that it's true just pretend that it's true  
Make believe you have me I'll make believe I have you  
We'll make believe till we can make it come true

You belong to another you belong to another  
I belong to someone too I belong to someone too  
But they can't seem to see that our love just has to be  
We'll make believe till we can make it come true  
[ fiddle - steel ]

Maybe someday up above maybe someday up above  
We'll understand our kind of love we'll understand our  
kind of love

We know a love like ours is real I know just the way you  
feel

We'll make believe till we can make it come true  
Make believe that we're happy...
