Make believe that we're happy
Make believe that we're happy
Just pretend that it's true
Just pretend that it's true.

Make believe you have me
I'll make believe I have you
We'll make believe
Till we can make it come true.

You belong to another
You belong to another
I belong to someone too
I belong to someone too.

But they can't seem to see
That our love just has to be
We'll make believe
Till we can make it come true.

--- Instrumental ---

Maybe someday up above
Maybe someday up above
We'll understand our kind of love
We'll understand our kind of love.

We know a love like ours is real
I know just the way you feel
We'll make believe
Till we can make it come true.

Make believe that we're happy
Make believe that we're happy
Just pretend that it's true
Just pretend that it's true...
