"Make Believe (till We Can Make It Come True)"

Visit "[Make Believe \(till We Can Make It Come True\)](#)" on MotoLyrics.com

Make believe that we're happy
make believe that we're
happy

Just pretend that it's true
just pretend that it's true
Make believe you have me
I'll make believe I have you
We'll make believe till we can make it come true

You belong to another
you belong to another
I belong to someone too
I belong to someone too
But they can't seem to see
that our love just has to be
We'll make believe till we can make it come true
[fiddle - steel]

Maybe someday up above
maybe someday up above
We'll understand our kind of love
we'll understand our
kind of love

We know a love like ours is real
I know just the way you
feel

We'll make believe till we can make it come true
Make believe that we're happy...
