Just a mem'ry of the love I left behind  
I'm a fool seems I lose everytime  
For the future that I once held in my arms  
Is fading fast now the loneliness will come.

You can cheat  
But I'll still care about you  
But if you cheat you'll hurt your love  
Then you'll be blue.

Just a mem'ry of the love I left behind  
I'm a fool seems I lose everytime  
For the future that I once held in my arms  
Is fading fast now the loneliness will come.

But if you cheat you'll hurt your love  
Then you'll be blue.

Just a mem'ry of the love I left behind  
I'm a fool seems I lose everytime  
For the future that I once held in my arms  
Is fading fast now the loneliness will come...
