Everybody's got one, baby  
My hang up is you  
Everybody's got one  
The hang-up of some kind

Call it habit or call it weakness  
Thank goodness I've got mine  
The wanting the craving the needing  
Keeps my world from crawlin' through

Everybody's got one baby  
My hang-up is you

I'm hung up all the thrill I feel  
When I hold you in my arms  
I'm hung up because I need your love  
To wrap around and keep me warm

Your my little peace of heaven  
You're all I've got to hang on to

Everybody's got one baby  
My hang-up is you  
Everybody's got one baby  
My hang-up is you
