Old records bring back mem'ries
Pictures bring back tears
Do you ever think of me
After all these years?

I found a stack of old records that we used to listen to
And there beside the records were pictures of me and
you
So I dusted off the records and played them one more
time
I listened and looked at the pictures and almost lost my
mind.

'Cause old records bring back mem'ries
Pictures bring back tears
Do you ever think of me
After all these years?

Like the songs on the records
We were a big hit of yesterday
And when you held me in the pictures
I didn't know, I didn't know you'd fade away.

But old records bring back mem'ries
Pictures bring back tears
Do you ever think of me
After all these years?...
