Searching I've spent a lifetime darling
Searching looking for someone like you
Dreaming in all my dreams I dream that someday
I'd find someone like you.

Other loves have come my way
But they were not for me
Tell me that you're here to stay
Don't ever set me free.

'Cause I've been searching
I've spent a lifetime darling searching
Looking for someone just like you.

--- Instrumental ---

Other loves have come my way
But they were not for me
Tell me that you're here to stay
Don't ever set me free.

'Cause I've been searching
I've spent a lifetime darling searching
Looking for someone just like you...
