Playboy Charlie where you stayed last night  
Came home this morning sun was shining bright  
Blood shot eyes and mouth full of lies  
I'm fed up with your alibis.

You know and I know you don't treat me right.  
I married you for love and all we do is fuss and fight  
I'm no dumb dumb I know what it's about  
You better shape up or you're gonna get out.

--- Instrumental ---

You stay out from midnight till dawn  
It doesn't hurt you 'cause I'm home alone  
If you were me you wouldn't do me this way  
This is a game daddy too can play.

You know and I know you don't treat me right.  
I married you for love and all we do is fuss and fight  
I'm no dumb dumb I know what it's about  
You better shape up or you're gonna get out.

--- Instrumental ---

You know and I know you don't treat me right.  
I married you for love and all we do is fuss and fight  
I'm no dumb dumb I know what it's about  
You better shape up or you're gonna get out...
