

Kitty Wells "Step Aside"

Visit "[Step Aside](#)" on MotoLyrics.com

Angry words were spoken
And you turned and left me in a cloud of gloom
I knew when you took the car you'd drive around
Till you found a saloon.

Grip some pretty woman there
Makes over you and start that burning glow
Fight the urge to hold her tight
Just walk away refuse her, tell her no.

Step aside if she tries to get near you
Lock your heart if she starts making time
Turn your head if she says that she needs you
Step aside, please don't step out of line.

--- Instrumental ---

Don't feel bitter baby just because
Of something that was said so cruel
Stop before you go too far
Control yourself don't turn into a fool.

Don't let her get close to you
'Cause if you do you won't be very strong
Listen to your conscience now
And keep me from being sorry later on.

Step aside if she tries to get near you
Lock your heart if she starts making time
Turn your head if she says that she needs you
Step aside, please don't step out of line.

Step aside, please don't step out of line...
