

Kitty Wells "That's A No No"

Visit "[That's A No No](#)" on MotoLyrics.com

You had quite a good thing goin' with the girls you
used to knowin'
You went up and down your list just like a yo-yo
And though it may be hard to stop it I'm afraid you'll
have to drop it
'Cause if you want me to love you that's a no, no.

I know you're used to goin' places with them lights and
painted faces
Where the dancing girls do something they call go-go
I don't want to spoil your fun now but if I'm the only one
now
And if you want me to love you that's a no, no.

You know a no, no, means baby shouldn't touch
If baby really loves his mama so much.

So if you just can't resist 'em if they're not out of your
system
And if there's some more wild oats you've got to sow
Just remember while you're sowin' I'll be a packin' up
and goin'
'Cause I've told you many times that that's a no, no.

--- Instrumental ---

You know a no, no, means baby shouldn't touch
If baby really loves his mama so much.

So if some old flame starts burning or if you should get
to yearning
To go back to where those women that you know go
Don't come home expecting mama's a waitin' here in
her pajamas
'Cause I've told you many times that that's a no, no.

Oh, you should know by now that's a no, no.
Yes, you should know by now that's a no, no...
