There are three ways, three ways
Three ways to love you it's true
One is the wrong way and one is the right way
But the best is the way I love you.

One is the wrong way like some people do
They kiss and they lie and they'll never be true
But soon they will wonder why love flies away
And though how they'll cry when they'll find out some
day.

There are three ways, three ways
Three ways to love you it's true
One is the wrong way and one is the right way
But the best is the way I love you.

--- Instrumental ---

One is the right way so some people say
With dining and dancing in some cabarete
Now some girls may think this is really ideal
But too late they'll find out that love isn't real.

There are three ways, three ways
Three ways to love you it's true
One is the wrong way and one is the right way
But the best is the way I love you.

--- Instrumental ---

One is the best way the way I love you
With all of my heart and for all my life through
I think of you only forget all the rest
I'll show you my darling that my way's the best.

There are three ways, three ways
Three ways to love you it's true
One is the wrong way and one is the right way
But the best is the way I love you...
