Touch and go, that's how your love is
First you're mine and then we're apart
Even though I know what your game is
I still cling to your touch and go heart.

You only want my company when you are feeling blue
Just when I think you care a little there's someone new
Though I know how hopeless my chance is
I'm just a slave for your touch and go heart.

--- Instrumental ---

Touch and go, that's how your love is
First you're mine and then we're apart
Even though I know what your game is
I still cling to your touch and go heart..
