Come here heart and let me talk to you  
Before you up and fall for someone new  
It's alright to go on out and have yourself a ball  
But watch it heart don't fall.

It's a long way for one to drop  
It's not the fall that hurts it's that sudden stop  
You've got fooled once before as you recall  
So watch it heart don't fall.

--- Instrumental ---

If you meet somebody who says they love you  
Make sure the things they're telling you heart is true  
You can trust one but you can't trust them all  
So watch it heart don't fall.

It's a long way for one to drop  
It's not the fall that hurts it's that sudden stop  
You've got fooled once before as you recall  
So watch it heart don't fall.

So watch it heart don't fall...
